Skills

- **Python Development (Junior Level)**
- **Web Development with Django**
- **Data Analysis & Visualization**
- **Database Management with SQL**
- **Git & GitHub**

Languages

- **Polish (native)**
- **English (B2)**

💼 Projects

Github profile

Link : https://github.com/LuckyS-J
Portfolio : https://luckys-j.github.io/portfolio/

I have experience in logistics, but I am now focusing on programming, especially in Python. As a self-learner, I continuously develop my skills by working on personal projects and exploring new technologies. I plan to pursue a master's degree, most likely in Data Science. I am a fast learner who enjoys taking on new challenges and getting involved in additional initiatives. Currently, I am looking for my first job as a programmer to gain practical experience and grow in this field.

Python		Django
HTML & CSS (basics)	**Technologies**	Flask
SQL		Linux (basics)

🎓 Education

AGH University of Kraków

2022 - Present : Engineering Studies
Major : Management and Production Engineering

2022-2024 : Member of the Transpeed Scientific Club
Position : Leader of the Prototyping Section

I am a third-year Management and Production Engineering student at AGH University, currently transitioning into programming. I hold certifications in Excel, Python, and SolidWorks. I was active in a scientific club, leading the prototyping section and organizing team participation in an international conference in Zurich. I later stepped away to focus more on programming while continuing other academic activities.

EHW 2024 International Conference Participant		4x Award for Participation and Presentation at the Barbórka Conference
2x Rector's Scholarship for Academic Achievements	**Top Achievements**	Co-authorship of a scientific publication
